

23rd European Conference on Modelling and Simulation

Madrid, Spain, June 9–12, 2009

ECMS

**ECMS
2009**

 **Universidad
Rey Juan Carlos**

<http://www.scs-europe.net/conf/ecms2009>

For many years, the European Conference on Modelling and Simulation has proven to be an outstanding forum for researchers involved in building innovative modelling and simulation systems and tools on both the research and the industrial front. ECMS features an outstanding technical program ranging from introductory tutorials and software reviews to state-of-the-art research and practice. **ECMS 2009** will be held in **Madrid**, Spain. The conference aims at bringing together and is sharing modelling and simulation technologies and skills among researchers and practitioners from both, old and young EU members, Western and Central-Eastern European countries, as well as from outside Europe. The conference will include exhibitions, international research projects, software user groups, and a social program. Special tracks on traditional and new simulation topics will be organised. The ASMTA 2009 ‘AnalYTical and Stochastic Modelling Techniques and Applications’ conference will be held in conjunction with ECMS 2009.

Deadlines for ECMS

Paper submission	February 20, 2009
Notification of acceptance	March 24, 2009
Camera-ready copies	April 24, 2009
Conference	June 9-12, 2009

Location

Madrid

Universidad Rey Juan Carlos

Campus Vicálvaro

The conference will include the following tracks:

- Simulation of Intelligent Systems (*Lars Nolle*)
Simulation of Complex Systems and Methodology (*Krzysztof Amborski*)
Simulation in Industry, Business and Services (*Alessandra Orsoni*)
Agent-Based Simulation (*Eugène Kerckhoffs*)
Simulation Applications in Industry (*Agostino Bruzzone*)
Bond Graph Modelling and Simulation (*Loucas S. Louca*)
Simulation, Experimental Science and Engineering (*Jan Amborski*)
Discrete Event Modelling and Simulation in Production, Logistics and Transport
(*Gaby Neumann*)
Finance and Economics (*Javier Otamendi*)
Modelling, Simulation and Control of Technological Processes (*Petr Dostál*)
Electrical and Electromechanical Engineering (*Sergiu Ivanov*)
Multi-Resolution and Granular Modelling (*Andrzej Bargiela*)

and is held in conjunction with

ASMTA 2009 The 16th International Conference on Analytical and Stochastic Modelling Techniques and Applications

by Khalid Al-Begain

Special sessions

ECMS is committed to supporting pioneering research in Modelling and Simulation that crosses the boundaries of the established Conference Tracks. To this end, we encourage proposals for Special Sessions that open new horizons for M & S research and/or that will serve as focal points for the applications of M & S technology. The proposals will be assessed by the Conference Committee and, if approved, will give the proposer the management powers over their Sessions.

For paper submissions please check <http://www.scs-europe.net/conf/ecms2009/deadline.html>

Please email any question you might have, to: ecms@scs-europe.net

Effort is being made to index the proceedings with major indexing agencies.

A selection of the Finance and Economics Track papers will be published in a Research Book by Dickinson

Fees

The fees include proceedings (also on CD), lunches, coffee breaks and conference dinner.

Fee for authors/participants who have been registered in ECMS2007 or ECMS2008	€ 375
Student participants with paper	€ 275
New Participants or new authors	€ 425

ECMS 2009 General Conference Chair

Javier Otamendi

Universidad Rey Juan Carlos Madrid
Campus Vicálvaro Facultad de Ciencias Jurídicas y Sociales
Departamento Economía Aplicada I
Paseo Artilleros s/n
28032 Madrid
