Dear Author,

I am pleased to inform you that your paper has been accepted for presentation at this conference and for printing in the Conference Proceedings and inclusion on the conference CD-Rom. **Acceptance is conditional upon our receiving your final camera-ready paper by the above due date, AND a paid Author Registration for at least one of the authors of each paper. Acceptance is also conditional on a final review of the camera-ready paper.** If your work must be cleared or approved before publication by your company or by the government, please be sure that process will be completed by the due date above or we will not be able to include it in the Conference Proceedings. If the paper is not approved by that date, you can discuss the possibility of presenting it as a late paper with your Conference Chairman.

Please note papers cannot be published if payment is not received by the due date. One full registration fee per presentation must be paid by **SEPTEMBER 15, 2003. If this is not possible, you must contact the office immediately.**

The enclosed author kit is provided to aid you in preparing your paper for publication in the Proceedings, which will be distributed at the Conference. **Please follow the instructions carefully.**

TEN-PAGE LIMIT -- The **MAXIMUM** page limit for an **extended paper** manuscript is TEN pages. Include payment for excess pages (over TEN) at **60 EURO** for each subsequent page with your Author Advance Registration. If you submit more than one paper to be published, you may choose the least expensive of the following two methods. (1) Count the total number of pages to be published, pay your registration fee plus excess page fees for the number pages over 10, if any. Or (2) Pay a participant registration fee for each paper to be published, plus excess page fees for any paper over 10 pages. Please call SCS – Rainer Rimane at +49.9131.85.27896 for any further registration information.

We have enclosed some guidelines you will find helpful as you prepare your oral presentation for the conference. LCD projectors and overhead projectors will be available in every room. If you require any other equipment such as slide projectors or video recorders, you must advise us well in advance. We will try to accommodate your needs without extra cost to you, but special orders may be charged directly to you.
